# International Mathematics Education Conference Catania 2015

The 12<sup>th</sup> International Conference of the Mathematics Education for the Future Project in Montenegro, Sep 2014, was attended by 174 people from 29 countries. The next conference will be held near Catania, Sicily, from Sep 16-21, 2015 at a beautiful hotel next to the sea. The conference title, *Mathematics Education in a Connected World*, continues our search for innovative ways in which mathematics, science, computing and statistics education can succeed in our increasingly connected world. Our twelve previous conferences since 1999 were renowned for their friendly and productive atmosphere, and attracted many *movers and shakers* from around the world.

We now call for papers and workshops (which can be peer reviewed) with the possibility of future publication in a book or journal. Please email Alan Rogerson at [alan@cdnalma.poznan.pl](mailto:alan@cdnalma.poznan.pl) for all details and updates.

Dr. Alan Rogerson  
D.Phil (Oxon), M.Sc., B.Sc., B.A. (Lon), Dip.Ed. Cert. Ed. (Cantab).  
Chairman of the International Program Committee  
Co-ordinator of the Mathematics Education for the Future Project

## Welcome to Odense

It is with great pleasure that we welcome The World Council for Gifted and Talented Children World Conference in 2015. We consider our city to be one of the centers in Denmark when it comes to knowledge and education, and we support these in every way we can.

Odense has a bit of everything: City life and diversity but also a charming atmosphere and many green sites right in the middle of the city. The river flowing through the city connects the parks and offers unique opportunities to combine city life with relaxation in beautiful green spaces.

See you in Odense!  
- Anker B. Øye, Mayor of Odense

## 21st World Conference Educating Gifted and Talented Children - Turning Research Into Practice

10-14 August 2015  
Odense, Region of Southern Denmark

World Council for Gifted and Talented Children  
www.worldgifted2015.com

Dear Colleagues and Friends,

The World Council for Gifted & Talented Children (WCGTE) is looking forward to meeting up with all our members and new attendees in Odense, Denmark in 2015. At the 21st WCGTE Biennial Conference, we can assure you that we will have a truly global representation in our keynote line-up. We will also be paying homage to our past with a Keynote from our Legacy speaker.

We invite you to explore a diversity of viewpoints, research and practice from around the globe. The theme - Turning research into practice - will be a very useful thread and will run through-out the conference. The town of Odense will prove to be a truly magical venue and place to visit, especially in August. August is the month of festivals: The Flower Festival, The Danish Words Festival, The Hans Christian Andersen Festival and last but not least, the Harry Potter Festival!

This conference will provide a programme with the highest calibre of presenters bringing together leaders in Gifted Education. These leaders will share their knowledge, expertise and practice from many cultures and countries. These leaders will include researchers, educators, practitioners, psychologists, and parents among others.

I would like to thank our Danish Conference Team for all their on-going hard work as well as the Executive Committee that has been a constant support throughout the development of the conference. I would also like to invite you to encourage those you know as well as yourself to attend as it is going to be a good one. Hoping to see you all in Odense, Denmark 2015!

Leslie S. Graves  
WCGTE President

The House of Hans Christian Andersen

## Focus of the World Conference

With the group of researchers and practitioners in the area of gifted and talented education being relatively small the need to come together on a global scale is essential!

This is why as the focus of this international conference we suggest working together in transforming knowledge from research into practical tools for teachers and other educators to use on an everyday basis. We will urge all participants to take part in this collaboration and networking in order for the gifted area to advance. We might even agree on a joint research project to be carried out on a global scale.

By facilitating a conference where we not only share information but process it through collaboration and cross-border networking, we have the potential to both increase the effectiveness of and validate previously isolated research cells, whilst also forging a much more tight-knit international community. This community is something we refer to as the "Global Village". Through it, we hope to reach a networking milestone from which we may continue to fully unfold both our intellectual and creative potential, ultimately securing a better future for gifted and talented children everywhere.

## The Strands Are:

- Turning research into practice
- Identifying the gifted and identifying the talented
  - Educating and extending gifted learners
  - Developing talents in the home, classroom and beyond
  - Research on the gifted
  - Conceptual frameworks for teaching the gifted
  - Curriculum for the gifted
  - Digital and Technological Applications and Practices in Gifted Education

- Giving gifted and talented children a voice
- Advocacy for gifted students
  - Partnerships to enhance educating the gifted
  - Creativity and social-emotional development
  - Creativity in mathematics
  - Values education for the gifted
  - Twice-exceptional gifted learners

- On-site collaboration
- Study groups
  - Networking dinner groups

- Online collaboration
- Setting the stage for future sharing of information
  - E-networking
  - E-learning options

We encourage you to submit a proposal that fits one of these strands at [www.worldgifted2015.com](http://www.worldgifted2015.com)

# GATEWAYS FESTIVALS
