MakeBeliefsComix.com Launches New ESOL Section for Educators

Dear colleagues,

MakeBeliefsComix.com has launched a new ESOL teacher resource section to help students who are learning English or improving their literacy skills. (See <http://www.makebeliefscomix.com/ESOL/>)

The new ESOL features from the free online comic strip generator include:

.Publication of a free e-book, "Something to Write About: Writing Prompts for English Language Learners and Literacy Students." (Download at <http://www.makebeliefscomix.com/eBooks/>)

.FILL-ins – short, quick fun writing prompts for students to complete.

(See <http://www.makebeliefscomix.com/ESOL/ESOL-Fill-Ins/>)

.Printables that encourage writing and conversation.

(See <http://www.makebeliefscomix.com/ESOL/ESOL-Printables/>)

.Comic Strip Starters – comic templates to quick-start students' creating comic strips and which also serve as conversation starters. Print and distribute them among two-person teams. (See <http://www.makebeliefscomix.com/ESOL/ESOL-Comix-Strip-Starters/>)

.Class activities to help English language learners express themselves. These include making paper memory quilts in which students draw quilt panels and talk about their memories; creating autobiographical comic strips; teaching students how to interview one another to learn about one another's lives. (See <http://www.makebeliefscomix.com/ESOL/ESOL-Classroom-Activities/>)

.Lesson plans written by ESOL professionals and demonstration videos for using comics in the classroom. (See <http://www.makebeliefscomix.com/ESOL/ESOL-Videos-Lesson-Plans/>)

Please review the new ESOL section, try it out with your students, and give us your feedback (billz@makebeliefscomix.com). I hope you will share what we are offering with your colleagues, too.

Sincerely,

Bill Zimmerman

VAGTC Conference 21-22 May 2015

Last week I was very fortunate to be able to attend the VAGTC Gifted Education Essentials Tools for Putting Theory into Practice conference which was held at CQ Function Centre Queens St Melbourne on Thursday 21 and Friday 22 May 2015 <http://www.vagtc.asn.au/vagtc-conference-2015>

Some of the presentations can be read at <http://www.vagtc.asn.au/conference-2015-presentations>

The conference was officially opened by Judith Graley Member for Narre Warren Sth and Parliamentary Secretary to Hon James Merlino, the Victorian Deputy Premier and Minister for Education who spoke of collaborating with the VAGTC to make Victoria 'the Education State' by acting on the accepted recommendations from the report into the Victorian Parliamentary Inquiry into the Education of Gifted and Talented Students

<https://giftedresources.wordpress.com/2012/08/20/victorian-parliamentary-inquiry-into-the-education-of-gifted-and-talented-students/>

Funding has been allocated for increasing opportunities for rural and outer suburban students, Koori students, ESL students and low socio economic group students.

The VAGTC has been contracted by DET to deliver teacher and parent half day seminars in 5 country towns in Victoria.

VAGTC are writing an online resource for teachers of gifted students to be placed on the DET website.

DET were the major sponsor for the conference.

Day 2 was opened by Judy Connell from Catholic Education Office, also sponsors of the conference.

Conference participants were treated to musical performances by Sadie Mustoe from The Patch Primary School, 2014 winner of The Maldon Minstrel Award for country music singer-songwriters on Thursday <http://www.maldonfolkfestival.com/maldon-minstrel-award.htm>

and Alby Sands, a young jazz musician and composer from St Leonards College on Friday.

The excellent opening Keynote address presented by Dr Katherine Hoekman, the Consultant: Academic performance at the Association of Independent Schools NSW was titled Play, Passion and Performance.

Dr Hoekman also presented two mini keynote sessions Creating Agile Learning Spaces to Connect and Support the Community of Learners and Applying Universal Design for Learning (UDL) Principles: Creating Opportunities for Depth and Complexity

The Keynote address on Friday 22 May given by Manoj Chandra Handa, a Gifted Education Consultant at Oceans of Excellence <http://www.oceansofexcellence.com/> Sydney NSW was titled Building Differentiated Schools of Curious Delight. He also presented an inspiring session titled Strategies for Identifying and Addressing Underachievement among Gifted Learners

There was a great selection of presentations and workshops.

I enjoyed attending these sessions

PARENTS SEMINAR

A Parent Seminar was run in conjunction with the conference on Thursday 21 May

At this seminar Jenny Gotz Papillo spoke about her experiences in an excellent presentation titled One journey

<http://www.vagtc.asn.au/sites/vagtc.asn.au/files/Jenny%20Gotz%20Papillo%20Parent%20Seminar.pdf>

Next a panel of experts moderated by Paul Double answered the parents' questions on issues and concerns relating to parenting and educating gifted children.

The panel comprised Dr Gail Byrne, Andrea Blake, Kate Mitchell Dr Anne Grant and Jenny Gotz Papillo

After lunch the parents were addressed by Derek McCormack of Raising Children Network

<http://raisingchildren.net.au/>

Then Michele Juratowitch of Clearing Skies Brisbane <http://www.clearingskies.com.au/index.html> presented Gifted and Happy?

Michele observed that whenever she speaks to parents the thing they most often say to her is "I just want my child to be happy!" Her own research influenced by the work of Dr Martin Seligman, Prof Miraca Gross, Dr Linda Silverman and Mihaly Csikszentmihalyi showed that students who were suitably placed in terms of educational challenge and true peers could be happy and did not have to make a forced choice.

I really enjoyed the experience of participating in the conference which ran very smoothly and catching up with friends and colleagues, especially the members of the VAGTC Committee, and also meeting and learning from so many people who are passionate about the education of gifted students.

Melbourne Graduate School of Education

Second Gifted Education Symposium

The multiple ways of being gifted: Who do we ignore at our peril?

The Melbourne Graduate School of Education will hold its second Gifted Education Symposium from 2.45 pm – 5.00 pm on June 22, 2015.

The provision of effective gifted education needs to be informed by contemporary research on how the gifted and talented students know, think and learn. The Melbourne Graduate School of Education has an active research program that examines aspects of this. The focus is informed by international trends and aims to contribute to these. The symposium will examine research currently being conducted in MGSE relating to the topic of *the multiple ways of being gifted*. The topics and presenters are as follows.

Time	Title of session
2.45 pm - 2.50 pm Prof Field Rickards	<i>Welcome and introduction</i>
2.50 pm – 3.45 pm Mr Joe Santoro	<i>The use of concept mapping to describe and monitor multiple ways of being a gifted learner</i> This presentation will be Joe's PhD completion seminar. The multiple ways of being gifted will be examined through displays of knowledge on concept mapping tasks for multiple topics within the classroom.
4.00 pm – 4.30 pm Mr David Camilleri	<i>How visually spatially gifted students learn</i> This cohort is frequently overlooked in gifted identification and often become alienated from regular educational provision. David will examine this learning profile and how these students can be accommodated in teaching.
4.30 pm – 5.00 pm Dr John Munro	<i>Understanding gifted learning disabled students: not easily programmed</i> Educators are becoming increasingly aware of the twice or dual exceptional learners. John will review recent research that has unpacked how these students learn. He will identify implications for teaching them.

To register your interest in this activity, please email Joe Santoro at:

21st World Conference Educating Gifted and Talented Children - Turning Research Into Practice

10-14 August 2015
Odense, Region of Southern Denmark

Welcome to Odense

It is with great pleasure that we welcome The World Council for Gifted and Talented Children World Conference in 2015. We consider our city to be one of the centers in Denmark when it comes to knowledge and education, and we support these in every way we can.

Odense has a bit of everything: City life and diversity but also a charming atmosphere and many green sites right in the middle of the city. The river flowing through the city connects the parks and offers unique opportunities to combine city life with relaxation in beautiful green spaces.

See you in Odense!
- Anker Boye, Mayor of Odense

www.worldgifted2015.com

Dear Colleagues and friends,

The World Council for Gifted & Talented Children is really looking forward to meeting up with all our members and new attendees in Odense, Denmark in 2015. At the 21st WCGTE Biennial Conference, we can assure you that we will have a truly global representation in our keynote line-up. We will also be paying homage to our past with a keynote from our legacy speaker.

We invite you to explore a diversity of viewpoints, research, and practices from around the globe. The theme - Turning research into practice - will be a very useful thread and will run throughout the conference. The town of Odense will prove to be a truly magical venue and place to visit, especially in August. August is the month of festivals - The Flower Festival, The Smash Words Festival, The Hans-Christien Andersen Festival and last but not least, the Harry Potter Festival!

This conference will provide a programme with the highest calibre of presenters bringing together leaders in Gifted Education. These leaders will share their knowledge, expertise and practices from many cultures and countries. These leaders will include researchers, educators, practitioners, psychologists, and parents among others.

I would like to thank our Danish Conference Team for all their on-going hard work as well as the Executive Committee that has been a constant support throughout the development of the conference. I would also like to invite you to encourage those you know as well as yourself to attend as it is going to be a good one. Hoping to see you all in Odense, Denmark 2015.

Focus of the World Conference

With the group of researchers and practitioners in the area of gifted and talented education being relatively small, the need to come together on a global scale is essential.

This is why as the focus of this international conference we suggest working together in transforming knowledge from research into practical tools for teachers and other educators to use on an everyday basis. We will urge all participants to take part in this collaboration and networking in order for the gifted area to advance. We might even agree on a joint research project to be carried out on a global scale.

By facilitating a conference where we not only share information but process it through collaboration and cross-border networking, we have the potential to both increase the effectiveness of and validate previously isolated research efforts, whilst also forging a much more tight-knit international community. This community is something we refer to as the 'Global Village'. Through it, we hope to reach a networking milestone from which we may continue to fully unfurl both our intellectual and creative potential, ultimately securing a better future for gifted and talented children everywhere.

The Strands Are:

Turning research into practice

- Identifying the gifted and identifying the talented
- Educating and extending gifted learners
- Developing talents in the home, classroom and beyond
- Research on the gifted
- Conceptual frameworks for teaching the gifted
- Curriculum for the gifted
- Digital and Technological Applications and Practices in Gifted Education

Giving gifted and talented children a voice

- Advocacy for gifted students
- Partnerships to enhance educating the gifted
- Creativity and social-emotional development
- Creativity in mathematics
- Values education for the gifted
- Twice-exceptional gifted learners

On-site collaboration

- Study groups
- Networking dinner groups

Online collaboration

- Setting the stage for future sharing of information
- E-networking
- E-learning options

We encourage you to submit a proposal that fits one of these strands at www.worldgifted2015.com

Autism Education: Visual Strategies for Communication and Learning

About the Presenter

Joanne O'Brien is the Founder/Director of the Australian Autism Association and has worked in the disability field since 1999. Her background is in Education and Children's Services, before moving into Family Support in 2006.

Joanne was previously the State Coordinator for the Early Days program at the Early Days program at Amaze (Autism Victoria) and is currently running ASD workshops and programs around the country.

Joanne has a very personal link to ASD and currently lives in Melbourne with her daughter, Holly, and their kitten, Sherlock.

Tuesday 23 June, 9.30 am – 12.30 pm

**MC Square, Doncaster and Templestowe room,
687 Doncaster Road, Doncaster**

Manningham Council invites you to attend a FREE practical education session for individuals, families, educators and workers presented by the Australian Autism Association.

For those with communication challenges, their wants, needs, opinions and dreams may go unknown or misunderstood.

How do you let someone know you're in pain if you cannot communicate effectively?

How can you learn a new skill if you have difficulties understanding what is being said to you?

Frustration, anxiety and extreme behaviours are often the result of an inability to express yourself or comprehend what is happening.

The visual Strategies workshop aims to equip participants with skills to:

- Recognise and understand communication challenges
- Develop and design individualised visual tools
- Implement visual supports.

RSVP:

For more information or to book, contact Jon Adams, Metro Access, Manningham Council on 9840 9317 or email jon.adams@manningham.vic.gov.au

Registrations close 15 June 2015.
